Guapa... la famiglia piu' colorata che c'e'

l'originalità del marketing e della grafica, l'impatto fresco e audace del brand Guapa, sono l'interazione che stimola il passaparola, diffonde il contenuto (brand/azienda) in modo esponenziale e aiuta i mercati, le famiglie e persino i più piccoli ad affezionarsi.

Guapa... la gamma piu' completa che c'e'

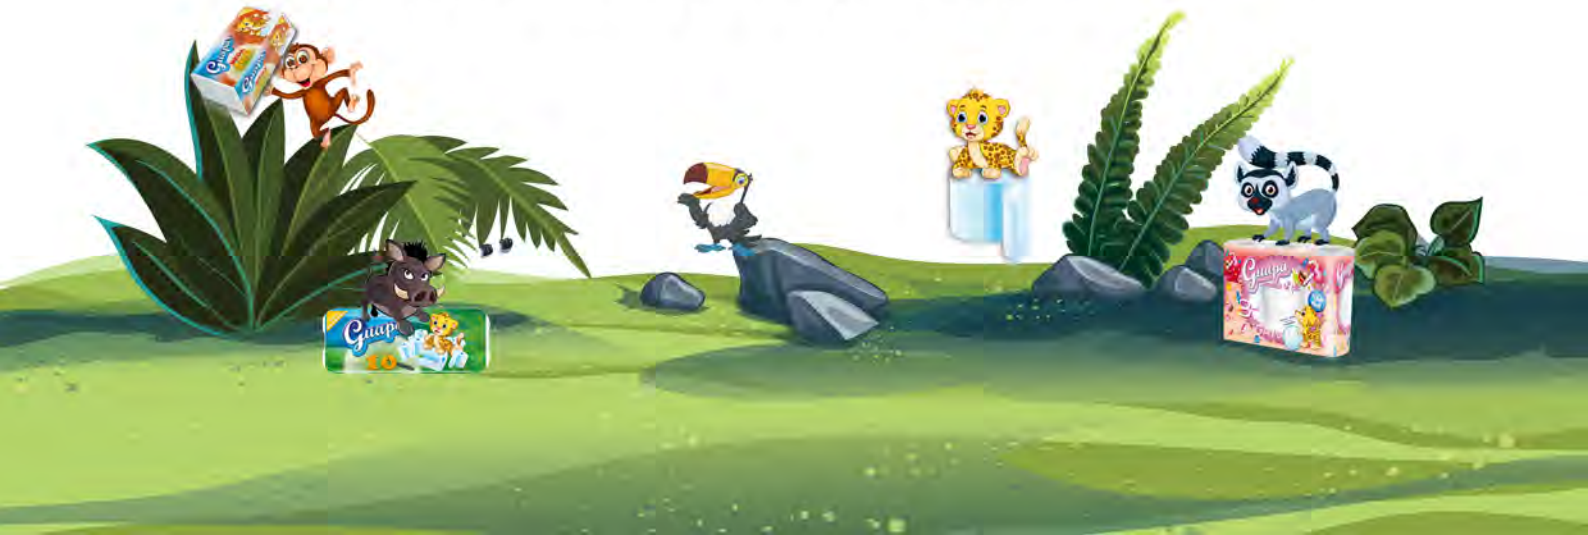

si tratta di una aggregazione di impianti di ultima generazione, insieme all'ovatta di cellulosa, che danno vita ad una nuova linea e a sempre più svariati formati in grado di dimostrare la propria versatilità sui mercati, anche quelli più esigenti.

Guapa... l'ambiente piu' pulito che c'e'

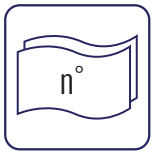

l'ambiente non più visto come oggetto di sfruttamento, bensì di investimento grazie al suo bassissimo impatto ambientale. la linea è certificata **PEFC**, la certificazione che garantisce la corretta gestione ambientale delle foreste da cui deriva la cellulosa impiegata nella produzione.
